

W.H. Cooke Times

Vol. 8, No.2 Spring 2021
Free

Hanover, PA

Manufacturer of thermocouples, RTD's, and thermistors and distributor of instrumentation and controls for temperature, pressure, level, flow, pH, RH, flame and gas detection and heaters for almost any application. We also carry chart recorders and chart paper and pens as well as paperless recorders, data loggers, pumps, valves, and motors, and industrial oils, solvents, lubricants and PPE. PPE SALE
We have excess inventory
on
Face Shields and Hand Sanitizer

Face Shield

\$1/ea in increments of 10
\$10/ case of 10

Hand Sanitizer 16.9oz

\$1.50/ea in increments of 35
\$52.50 case of 35 bottles

See below for more PPE products we have in stock

PPE

We still have a large stock of 3 ply masks, KN95 masks, Face Shields for both adults and children, Hand Sanitizer gel, and XL Nitrile Gloves. Please see below offering and if you need something listed here please email team@whcooke.com and let us know what you need.

You can also visit our [Online Shop](#)

****PPE Products****

**Level 3 Black 4-ply
Made in USA
\$.99/ea**

**Level 3 Face Mask
Made in USA
\$.99/ea**

**Level 1
Disposable Face Mask
\$15/50 pc**

**Level 2 Face Mask
\$30/50pc**

**Cloth Mask
Made in USA
\$40/pk of 10**

**N95 Masks
\$160/20pc**

**KN95
\$55/20 pc**

**Children
Disposable Face Mask
\$20/pk of 50**

W.H. Cooke & Co., Inc.
6868 York Rd, Hanover, PA 17331 717-630-2222

****PPE Products****

**Kid's Face Shield
\$20/10 pc**

**Face Shield
\$20/10 pc
NOW
\$10/10 pc**

**Nitrile Gloves XL
4mil
\$230/case of
1000**

**Vinyl Gloves
L & XL
\$150/case of 1000**

**Nitrile Gloves
Medium 4mil
\$230/case of 1000**

**Hand Sanitizer
Gallon
\$22/per gallon
(Includes Pump)**

**Liquid Hand Sanitizer
Sold by pallet
240 gallons per pallet
\$12/per gallon plus freight**

**Hand Sanitizer 16.9oz
~~\$140/case of 35~~
(Includes Pump)
NOW
\$52.50/case of 35
(Includes Pump)**

W.H. Cooke & Co., Inc.

****PPE Products****

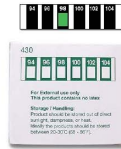

Shoe Covers
\$.37/ea

Level 2 Disposable Isolation Gown (SMS)
\$7/ea 3 case min
80 gowns per case of same size
(can mix & match if we have stock)
Currently have:
10 Medium in stock/\$70
11 Large in stock/\$77
*after current stock is gone 3 case min will apply

Reusable Forehead Thermometer
\$20/10 pc

Stick-on, Disposable Forehead Thermometer
\$75/box of 100

No Touch Door Opener
\$10/10 pc

Mask Strap
\$15/10 pc

Spare Pump
(For Gallon Only)
\$4/ea

Hair Net 21in
\$.25/ea

Quarter in Review

Spring has sprung! So nice to usher in the warmer weather here in South Central Pennsylvania. It seems like everyone I talk to in the business world is busy right now. Manufacturing and Construction are doing well according to the folks that we do business with and according to investing.com, the U.S. Manufacturing Purchasing Managers Index (PMI) was at a 59.1 on April 1, 2021. A reading above 50 indicates expansion in that sector and below 50 indicates contraction.

<https://www.investing.com/economic-calendar/manufacturing-pmi-829>

With the Country opening for dining, travel, and other activities, it seems there is much to look forward to this Summer. If there is anything we can help with, whether it be for cooling applications, temperature sensing solutions, flow, level, pressure, laboratory analytics, heating, or HVAC and boiler parts and more, please keep W. H. Cooke & Co. in mind for your applications and instrumentation needs.

Please keep in mind that we are a distributor for Definox who makes sanitary valves, mix-proof valves, pigging systems, and more. Learn more at this link. <https://www.definox.com/>

If you would like us to quote any valves, please call 717-630-2222
or email team@whcooke.com

Thanks, and have a great Summer!

Best Regards,
Wayne H. Cooke

Signet 2580

FlowtraMag™

One of the most common measurements within a plant is flow, often done with a MagMeter. [Signet's 2580 FlowtraMag™](#) offers several advantages over competitors such as reduced up & down stream pipe diameters for accurate measurement, partially filled pipe detection indicator, much lighter weight than metal magmeters, and lower cost than competitive units.

These features make the 2580 ideal for use in municipal/industrial water treatment, process control, cooling towers, and chemical processing. An example would be restricted straight line runs of pipe up and down stream of the MagMeter resulting in inaccurate flow readings. The 2580 solves this by allowing for accurate effluent flow indications with only a 3 pipe diameter requirement instead of 8 to 12 on standard MagMeters.

There are other cost saving advantages too numerous to mention in this limited space. If you would like to speak to an engineer, please call 717-630-2222. We will provide guidance, as well as send technical data immediately. Give us a call and start saving money!!!

-Don Crain

N.I.S.T Flow Meter Cart

The National Institute of Standards and Technology's (NIST) Additive Construction Laboratory (ACL) studies the metrology of materials and test methods used to develop standards and best practices for emerging construction technologies. The laboratory utilizes a Concrete Additive Manufacturing Robot Arm (CAMRA), a large-scale robotic system, to dispense cementitious materials to create functional structures and test specimens.

The laboratory required a flow meter capable of measuring the volumetric flow rate of a slurry cement, sand, and water with solids content greater than 70 % for concrete 3-D printing applications. Partnering with Emerson MicroMotion, W. H. Cooke was able to offer a MicroMotion T150T Coriolis flow meter for this application, but there was one problem. The laboratory did not have any hard piping to install the flow meter and wanted to use hoses with cam lock fittings for the inlet / outlet process connections and they had limited space in the laboratory to mount this flow meter.

Working with the engineers at NIST, W.H. Cooke was able to design and fabricate a custom, portable flow meter cart to meet the customer's desired mounting configuration and space restraints.

-Matt Wootton

In The Community- World of Sprint Cars

W.H. Cooke & Co. is happy to be sponsoring
Rutz Performance Motorsports
Sprint Car Team

We wish them luck this season!!

Team Name: Rutz Performance Motorsports
 Division: Winged Super Sportsman
 Tracks: BAPS Motor Speedway, Lincoln Speedway, Trail-Way Speedway
 Car: RPM Chassis #19R, Weight-1725lbs, Engine- carbureted Small Block Chevy producing 550-650 horsepower on methanol
 Crew: Tim Starr, Gary Rutz, Alex Hannold
 Driver Bio: Eric rutz

Eric is from Etters, Pa. He's 33 years old and has been behind the wheel on dirt for 4 years. This will be his second season in the winged super Sportsman division. Prior to the super Sportsman, Eric picked up Rookie of the Year honors in 600 micro Sprints and two feature wins his rookie season. When he is away from the track he enjoys playing golf, ice hockey, the drums, and spending time with his wife Cassie and their two Golden Retriever puppies Wesley and Koda. Races take place at BAPS Motor Speedway most Saturdays at 7pm from March through October.
