

DroolShield

DroolShield® systems protect heater bands, wiring, and insulation from the expensive, damaging effects of drool blowback. DroolShields® are adjustable to fit any machine, install within seconds, and because they can withstand temperatures up to 700°F, they provide a reusable, long-term solution.

Benefits

- » Protects heater bands, wiring, & insulation
- » Cleans easily & saves time
- » Tolerates high temperatures

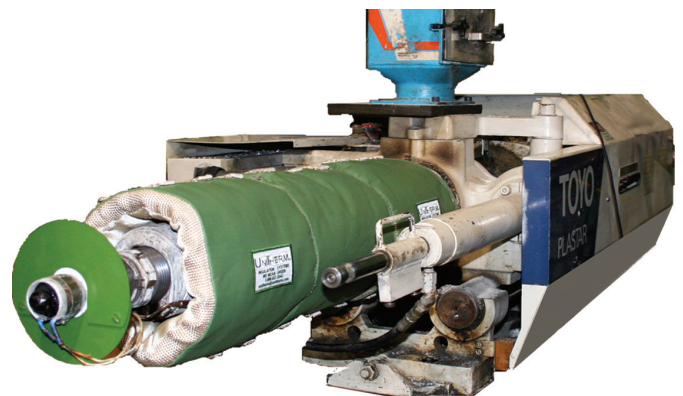

Ideal for

- » Injection molding

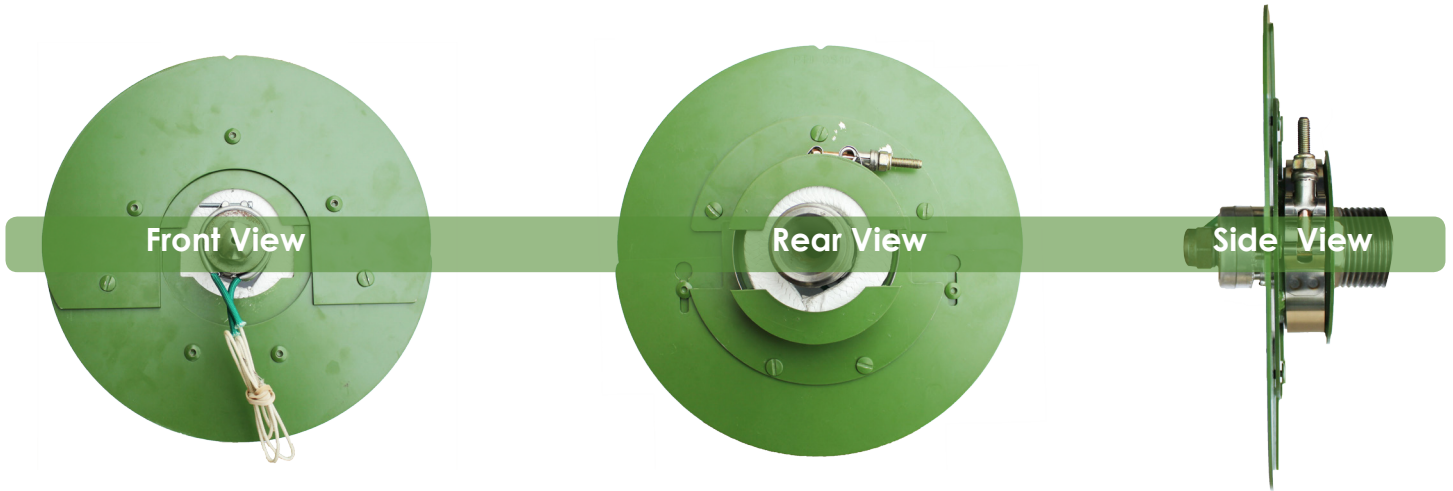

Before

After

DroolShield protects jackets, heater bands and wiring from drool back.

Design

Fits nozzles 1" - 4"

To Install - Attach appropriate shield to hub.

Install constructed DroolShield on nozzle.

10"

8"

Shield - Outside Diameter

Hub - Inside Diameter
(Outside Diameter is 6" on all hubs)

1" - 2"

2" - 3"

3" - 4"

*Kit is completely modular. All hubs fit both shields.
