

HBControls Solid State Relay Assemblies

- Pre-Engineered for Long Life
- Exceptional Performance
- Cost-Effective
- DIN Rail Mount

SSR 10 Amps Maximum

- .5" Wide
- Input or Output Modules Available
- Relay plug-in version (-p)
- UL, CSA, CE, VDE

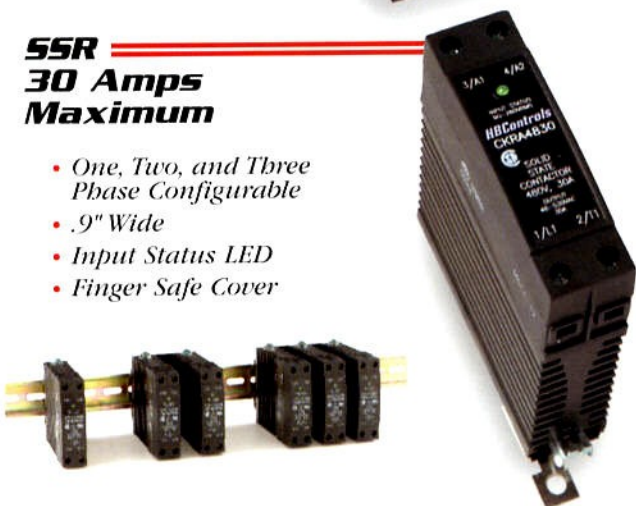

SSR 25 Amps Maximum

- Finger Safe Cover
- Input LED Available
- 1.8" Wide
- UL, CSA, CE, VDE

SSR 30 Amps Maximum

- One, Two, and Three Phase Configurable
- .9" Wide
- Input Status LED
- Finger Safe Cover

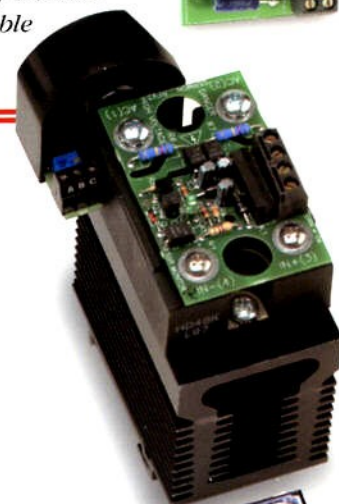

SSR with Loop Power

- Finger Safe Cover
- Provides Precise Time Proportioned 0-100% Output
- Loop Powered-No External Supply Needed
- 600 VAC Available

SSR with Monitor Board

- Line Loss Indication
- Relay Short Indication
- Load Open Indication
- Relay Output Indication

SSR with Power Controller

- 0-10 / 4-20 Control Signal
- Burst Fire or Phase Control
- 1.8" Wide

SSR with Intelligent Control

- Finger Safe Cover
- Field Selectable Control Inputs via DIP Switch
- Four Cycle Times: 200 MS, 1/10/100 Sec
- Input Status LED
- 600 VAC Available

SSR
40 Amps
Maximum

- Finger Safe Cover
- LED Input Status
- UL, CSA, VDE, CE

High
Current
Power
Control

- Finger Safe Cover
- Voltage Transient Protection
- 4-10 mA, 0-10 VDC or Manual Control Potentiometer Available
- 600 VAC Available

SSR
50 Amps
Maximum

- Finger Safe Cover
- 3" Wide
- LED Input Status Available
- UL, CSA, VDE, CE

Current
Transducers

- Panel or DIN Mount
- Direct Relay Mount
- LED Status Indicator
- Transistor Output Version Available

Application
Specific Solutions

100 Amp, 3-Phase, SSR Assembly with Integral Fan

Three Pole, Solid State Relay Assembly

12 Zone Relay Assembly with On-board Fusing

SSR
60 Amps
Maximum

- Finger Safe Cover
- 4.85" Wide
- LED Input Status Available

Larger Capacities...

HBControls offers a wide variety of larger capacities and configurations, Consult Factory.
